

Kingdom of Verdoleania - Verdolian Embassy in the Kingdom of the Netherlands

26-9-2015

From, King Patrick I,

In the Name of the Verdolian Government,

Today, 26 september,

Is the news that the Republic of Malduvia not more a vassal state is of the Kingdom of Verdoleania. This is decided after some riots were between our 2 countries. Verdoleania also need Malduvia not more. The King will lose his title as patron of Malduvia.

Through our intelligenceservice (VSA), we found out that the Malduvian army is rising and that there were plans for a war. We have discussed this with the President of Malduvia. He denies everything we claim. But we trust our intelligenceservice (VSA). Our Parliament has decided that this is better so. We do not want a puppet State with a growing army.

Greetings,

King Patrick I
